Learning how to analyze where you are in a class is a valuable skill. This worksheet is designed to help you calculate your current grade in a course. Given that knowledge, you’re in a good position to analyze which study habits to keep and which to change.

### Course: ___________

### Current Grade:_____

### Grade Goal: _______

#### Looking Back

1. Based on graded tests and papers (and other feedback), what are you doing well in the class?

2. Based on graded tests and papers (and other feedback), what can you improve on in this class?

3. Based on your own study habit and skills, what are you doing well in this class?

4. Based on your own study habit and skills, what can you improve on in this class?

#### Looking Forward

5. What kind of assignments make up the rest of the points you need to earn?

6. What can you do to improve your work on those assignments/tests?

### Possible Points So Far:

### Points Earned So Far:

### Current Grade:

\[(\text{Score from Line 2} \div \text{Score from Line 1})\]

### Total Points in the Course:

### Points Need to Achieve Goal Grade:

\[(\text{Total Points} \times .00\% \text{ of score you want})\]

### # of Points Needed to Earn Goal Grade:

\[(\text{Line 5} - \text{Line 2})\]
