What are SI Tables?

Peer-led study tables that support students enrolled in challenging courses like the PH20X or Z33X series.

Study tables of 6-8 of your classmates meet once a week for 50 minutes, weeks 2-10 of the term.

SI tables differ from lectures in that they are highly interactive; at study tables, you will engage in a variety of learning activities to practice with and master course concepts.

Study tables are led by students who have taken the course, succeeded in it, and have completed training. They attend lectures and are excited to help you learn course material.

How Do I Sign Up?

If you are in a course supported by SI, you can participate for free.

After an SI presentation during week 1, you will receive an email with a link to the registration website.

Be sure to choose a time that works for your schedule throughout the term!

Tables usually fill up within a few hours of the invitation email being sent, so be sure you sign up early!

For More Information . . .

SI Results

Our data show that students who participate in study tables at least 5 times or more per term, on average, receive final course grades 1/3 to 1/2 a grade higher than students who do not participate.
