

# STUDYING CHECKLIST

# READY FOR EXAMS

Before you start studying, it is good to take inventory of what the exam will be like and cover. This way you know you are studying the correct material and have a metric to assess how your studying.

**What do you know about the test format? Materials covered? Length? Time? Study tools available?**

**If you have questions now or in the future, who could you ask? When? Where?**

WHAT'S WHAT?

**REMEMBER:** You recognize the concept and have memorized key words but you don't know how to apply the content in a question.

**UNDERSTAND:** You can explain the material in its most basic form and answer simple questions.

**APPLY:** You know how it is connected to the bigger picture. You can use the concept to answer questions you have not seen before.

**MASTER:** You can teach it and answer others' questions. You can explain your answer to a difficult question and know why other answers are wrong.
